

6ºEP

MARTES 9 DE JUNIO DE 2020

Buenos días chicos, como siempre un placer veros aunque sea un ratito. Muy importante toda la información que os he dado ayer en la reunión, espero los correos de vuestras familias cuanto antes. Como ya sabéis el Miércoles es vuestra evaluación por lo que las tareas ya disminuyen, intentando que os centréis en mandar aquellas tareas evaluables que aún no habéis mandado a los diferentes profesores (Inglés, Arts...)

Por lo tanto, las tareas que tenemos para hoy son las siguientes:

- Lengua: Ficha al final del documento.
- Science: Ficha al final del documento.

Insisto, si se mandan menos tareas es para que tengáis más tiempo para realizar las tareas evaluables que aún no habéis hecho, no para tener más tiempo libre, ya que aún no estamos de vacaciones.

# Reproduction

## WORKSHEET 3.1

What are reproductive cells like?

### 1. Complete the sentences.

a) Female reproductive cells are also called \_\_\_\_\_

b) Male reproductive cells are also called \_\_\_\_\_

c) Female reproductive cells are \_\_\_\_\_

and they have \_\_\_\_\_

d) Male reproductive cells are \_\_\_\_\_

and they have \_\_\_\_\_

### 2. Write S (sperm cells) or E (egg cells).

a) They are produced from puberty and for a man's whole life. \_\_\_\_\_

b) They are one of the smallest cells in the human body. \_\_\_\_\_

c) They are released from the ovaries. \_\_\_\_\_

d) They have a zona pellucida around the membrane. \_\_\_\_\_

e) They are released from puberty until a woman is about 45-55 years old. \_\_\_\_\_

f) They are produced in the testicles. \_\_\_\_\_

g) They are one of the largest cells in the human body. \_\_\_\_\_

h) They have a head and a tail. \_\_\_\_\_

### 3 Complete the text.

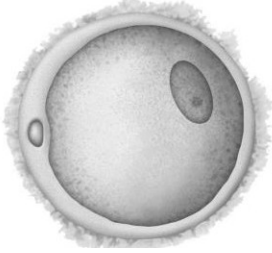

Humans reproduce by s\_\_\_\_\_ r\_\_\_\_\_. The male s\_\_\_\_\_ cell and the female e\_\_\_\_\_ cell combine to create a f\_\_\_\_\_. Each cell contains the D\_\_\_\_\_ of the parent. As a result, physical ch\_\_\_\_\_ are passed from the parents to the child.
